Introduction

2019-2020 Logos Seminary Fact Book

December 2020

Institutional Research (IR), as an intentional and directed service, was introduced at Logos Seminary in February 2009 by the Dean of Academics. The goal of IR is to identify, collect, and distribute key or necessary institutional data, in an effort to track institutional effectiveness, particularly with respect to strategic planning and departmental goals and key measurements. The 2009 Seminary Fact Book became the first concentrated and tangible reporting of IR by Logos Seminary. This publication is now in its eleventh year. Many of the data has been used for analysis and assessment by departments. It is also available for public access through Logos website, www.les.edu.
