Introduction

2021-2022 Logos Seminary Fact Book

Institutional Research (IR), as an intentional and directed service, was introduced at Logos Seminary in February 2009. The goal of IR is to identify, collect, and distribute key or necessary institutional data, to track institutional effectiveness, particularly with respect to strategic planning and departmental goals and key measurements. The 2009 Seminary Fact Book became the first concentrated and tangible reporting of IR by Logos Seminary. This publication is now in its thirteenth year. Much of the data has been used for analysis and assessment by departments. It is also available for public access through Logos website, www.les.edu.

I. Current Student Body Profile

I.1 Highlights

- **Admissions:** The total number of admitted students for 2022 (academic year) is 75. 72% is for master's degree programs, and 28% is for Doctor of Ministry program. The average age of all admitted students is 45. Students are coming from regions of China, Hong Kong, Taiwan, Canada, German, Myanmar, and New Zealand. 41 admitted students are from China which comprised 55% of total admitted students. The rest are either US residents or international students from other countries.
- **Enrollment:** The total enrollment number has shown a small amount of decrease from 2021. The FTE enrollment has decreased from 116.1 to 103.4 as well.
- **Gender:** The overall enrollment percentage for female is continued to be more than 50% for three consecutive fall terms. Male in M.Div. program has decreased in the past five years. M.A.F.M. program continues to be the most popular program for female.
- **Age:** The percentage of all program students under the age of 40 is 24.87%. The age between 50-64 has the largest percentage for Master of Divinity students, 43.59%. The average age of all students is between 45 and 50. 47.2% of all program students are age 50 or above. This should be considered and reflected in the program and curriculum design.
- **Graduation and Retention Rate:** The graduation rate for all programs appears to be lowered continuously. The major factor is the increase of part-time and online students continuously. The retention rate for M.Div. , M.A.F.M. and M.A.C.S. programs have improved from previous year.

II. Faculty Profile

II.1 Highlights

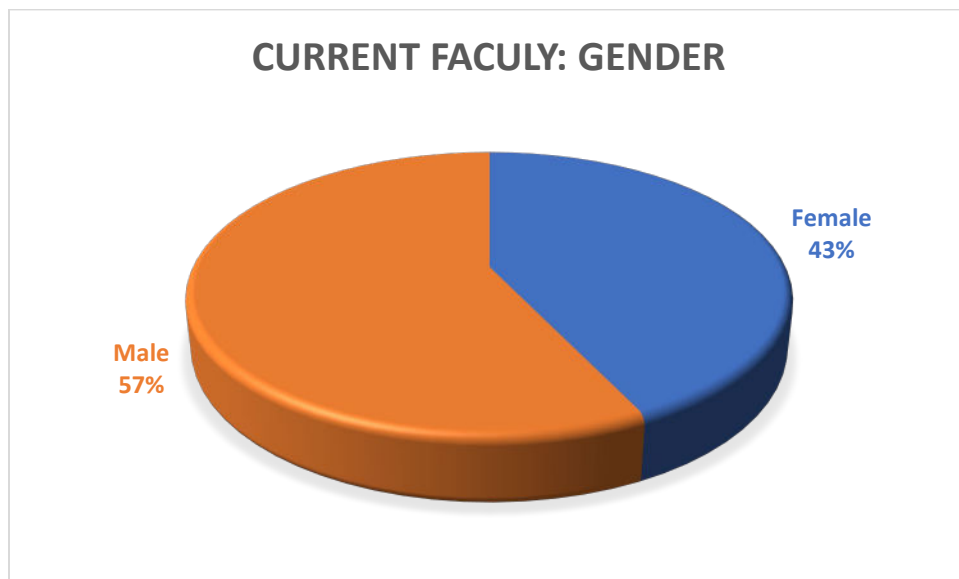

- ***Age, Gender, Denomination, and Educational Background:*** The present faculty team is well-balanced in diversity of age bracket, denomination, gender, and educational background.
- ***Faculty/Student Ratio:*** The ratio of full-time equivalent faculty and full-time equivalent student ratio is 1:9. This is considered a very good number and strength of our seminary compared to other ATS seminaries.
